Hasselt, Belgium

Profile

I have been doing a lot of "mobile" for some years now. It started as a hobby and later it got into me like Nutella.

I'm an advocate of new techs, my contributions to the startup sphere have led me to be able to wear multiple hats. Among them is possible to find those corresponding to *Marketing* and *Design*.

On my portfolio, there are several completely different apps in which I have contributed in many ways.

Languages

Spanish – Native

English – Fluent

Dutch – Basic (2.1-2.2 in progress)

Education

BE in Computer Engineering,

Universidad Tecnológica de La Habana

HAVANA, CUBA, 2007-2012

MSc in Computer Science and Technology,

Universidad Carlos III de Madrid

MADRID, SPAIN, 2016-2018

- Testing with Jasmine (*JavaScript*), Junit (*java*).
- Deployment using containers (*Docker*)

Other experiences (in years)

- Java (Desktop, Web, Teaching) 9y
- Lecturer 4y
- Pattern Recognition & Parallel Computing 2y
- Researcher 2y

Interests & Other details

Technology and personal growth, business, reading, dancing, traveling, foreign languages, OpenSource & Stack Overflow Collaboration, photography, teaching, videogames, AI.

I'm used to Agile environments filled with a research-intensive part. I have experience on both sides of the equation, sometimes leading a team, others, contributing to it.
